

I'm a young man

I'm growing up

Sometimes my underarms will sweat and feel wet

Sometimes they will smell bad

Now I need to wash with soap and water every day

I dry off

I put on deodorant

It keeps my under arms dry

Now I smell good!

I will put on deodorant every day before I put on clothes

Deodorant helps

Now it's part of my daily routine

I take care of my feet

I wash them with soap

I dry them well

I use powder

Sometimes my toes or feet itch or hurt

I have a cream that for my feet to make them feel better

I wear clean socks

Now I have happy feet!
