

Using the Men's Restroom

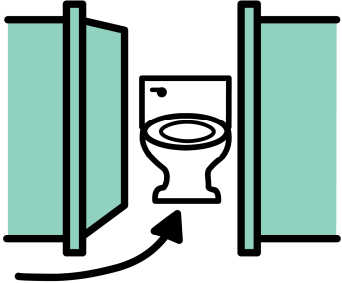

You have a decision to make...

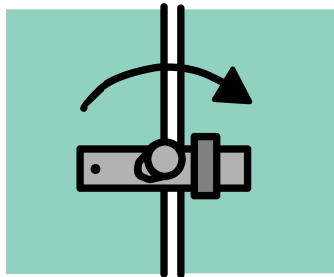

Should you use the toilet? Toilets are private

Or should you use the urinal? Urinals are not private

If you pick toilet, enter the stall

Close the door and lock it

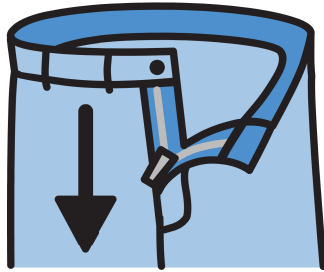

You can pee in the toilet standing up

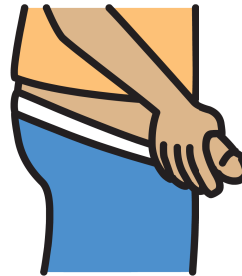

Or pee or poo sitting down

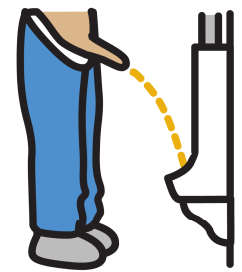

If you pick urinal, stand close

Now undo your pants But just a little bit!

Hold your penis

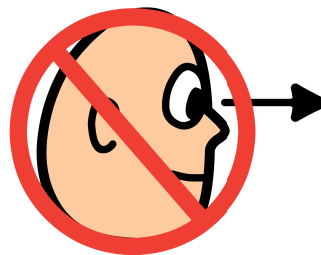

Aim and pee into the urinal

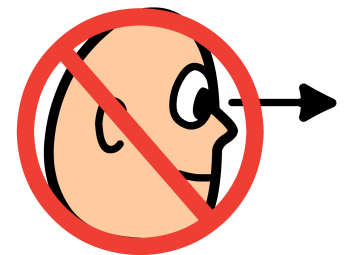

Don't pull down your pants ALL the way

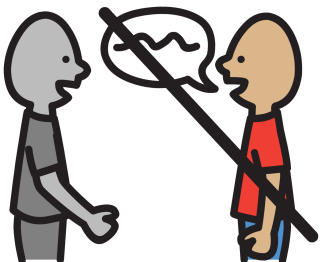

Don't show your bottom when using the urinal

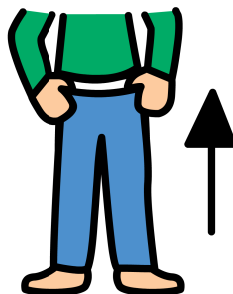

Don't watch other men or boys pee

Don't look at their private parts

don't talk to strangers

pull up pants

wash hands

leave bathroom
